SKILLS

Unreal Engine 5 / Blueprints · Unity · Godot · Prototyping · Level design
Design documentation · Playtesting · Version control (Perforce, GitHub, Diversion)

SELECTED PROJECTS

Frost Haul

Technical / Level Designer

School project / 11-person team / 7 weeks / Unreal Engine

- Designed and built a scrolling world around a stationary train, simplifying multiplayer physics and replication.
- Built the navigation map and dynamic materials; prototyped the journey and resource loop in Godot.

Count Corpula

Technical Designer / Programmer

HelloGameJam / 6-person team / 1 week / 3rd place

- Designed and implemented three computer minigames and a scoring system in Unreal Engine Blueprints.
- Ensured recruitment puzzles always had a valid solution and shortened typing tasks to improve pacing.

Greg the Frog

Level / Game Designer

School project / 16-person team / 3 weeks / Unity

- Designed and built both levels, from blockout to set dressing; improved navigation through playtesting.
- Polished movement feel and prototyped a jump adjustment that preserved momentum.
